This decision is based on our finding from:

Washington State law which directs that the true and fair market value of property shall be based upon sales of the subject property, or sales of comparable properties, made within the past five years, cost, cost less depreciation, reconstruction cost less depreciation, or capitalization of income. "True and fair" value is market value; that is, the price to be paid by a willing buyer to a willing seller.

Washington State law further stipulates that the assessment determined by the County Assessor is presumed to be correct and can only be overcome by presentation of clear, cogent and convincing evidence that the value is incorrect.

The issue before the Board is the January 1, 2015, true and fair market value. A hearing was held on November 19, 2015 before the Board of Equalization. The appellant, Rolf Petterson, was not in attendance at the hearing and the Assessor's office was represented by Shannon Edinger.

The Assessor valued the property at \$13,405 for the 2015 assessment year. The owners appealed, asserting a value of \$700.

The subject property is located at 8818 Crescent Bar Rd. NW Space #124, Quincy, Washington. Subject is a 1995 park model that is 384 sf with 1 bath. There is also a 96 sf storage shed.

The appellant stated that this trailer has no value because of its condition, therefore \$0 worth.

The assessor representative stated that there were 10 sales in the neighborhood, so no market adjustment was made.

The Board finds the arguments presented by the appellant are not substantial enough to meet the clear, cogent, and convincing standard of proof necessary to offset the presumption of correctness established under RCW 84.40.0301. The Board finds the Assessor's Response to Real Property Petition dated October 6, 2015, which was mailed to the appellant and submitted as evidence in this hearing adequately reflect the subject's important value-related characteristics.

Therefore, the Assessor's value is sustained at \$13,405.

A 75% downward adjustment was made in 2010 for 2011 through 2014 tax years and with this current inspection cycle the Assessor's Office is appraising at market value.

A -5% economic adjustment was applied to this neighborhood because of the river drawdown and riverbank closure.
